The Monster Horror Show J. H. BRENNAN, 1987-01

Horror and the Horror Film Bruce F. Kavin, 2012-06-25

Horror films can be profound fables of human nature and important works of art yet many people dismiss them out of hand. *Horror and the Horror Film* conveys a mature appreciation for horror films along with a comprehensive view of their narrative strategies, their relations to reality and fantasy, and their cinematic power. The volume covers the horror film and its subgenres such as the vampire movie from 1896 to the present. It covers the entire genre by considering every kind of monster in it, including the human. **Media, Performative Identity, and the New American Freak Show** Jessica L.

Williams, 2017-10-04. This book traces how the American freak show has re-emerged in new visual forms in the 21st century. It explores the ways in which moving image media transmits and contextualizes, reinterprets and appropriates the freak show model into a new American freak show. It investigates how new freak representations introduce narratives about sex, gender, and cultural perceptions of people with disabilities. The chapters examine such representations found in horror films, including a prolonged look at *Freaks* (1932) and *The Texas Chainsaw Massacre* (1974), documentaries such as *Murderball* (2005) and TLC's *Push Girls* (2012), 2013 disability pornography, including the pornographic documentary *Sick: The Life and Death of Bob Flanagan, Supermasochist* (1997), and the music icons Marilyn Manson and Lady Gaga in their portrayals of disability and freakishness. Through this book, we learn that the visual culture that has emerged takes the place of the traditional freak show but opens new channels of interpretation and identification through its use of mediated images, as well as the altered freak/norm relationship that it has fostered. In its illumination of the relationship between normal and freakish bodies through different media, this book will appeal to students and academics interested in disability studies, gender studies, film theory, critical race theory, and cultural studies. **The A to Z of Horror Cinema** Peter Hutchings, 2009-09-02.

Horror is one of the most enduring and controversial of all cinematic genres. Horror films range from the subtle and the poetic to the graphic and the gory, but what links them all is their ability to frighten, disturb, shock, provoke, delight, irritate, amuse, and bemuse audiences. Horror's capacity to serve as an outlet to capture the changing patterns of our fears and anxieties has ensured not only its notoriety but also its long-term survival and its international popularity. Above all, however, it is the audience's continual desire to experience new frights and evermore horrifying sights that continue to make films like *The Exorcist*, *A Nightmare on Elm Street*, *Halloween*, *Night of the Living Dead*, *The Texas Chainsaw Massacre*, *Psycho*, *Ringu*, and *The Shining* captivate viewers. *The A to Z of Horror Cinema* traces the development of horror cinema from the beginning of the 20th century to the present day. This is done through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries. Entries cover all the major movie villains, including Frankenstein and his monster, the vampire, the werewolf, the mummy, the zombie, the ghost, and the serial killer; the film directors, producers, writers, actors, cinematographers, make-up artists, special effects technicians, and composers who have helped to shape horror history.
