Composing a Teacher Study Group Richard J. Meyer,With Linda Brown,Elizabeth DeNino,Kimberly Larson,Mona  
McKenzie,2013-10-18 There has been a flurry of writing about teachers as inquirers and researchers as well as books about  
children as inquirers This volume brings these two areas together teachers and students are inquiring at Ridgeway  
Elementary School It demonstrates the importance of thought collectives as forums for student and teacher learning The  
children in the primary classrooms in this book are working to understand the world around them and their place in it as  
literate individuals Their teachers are studying themselves and the students No other book describes the way this work  
affects children teachers and the ethos of the school in which the work occurs In that sense this book is groundbreaking in  
that it is an honest portrayal of the joys and sorrows the successes and the stumbling blocks the clear vision and the  
obfuscating that teachers live as they enact a life of asking questions being curious wandering and wondering Acknowledging  
and honoring the many faces of inquiry in schools this book demonstrates the children s inquiry their teachers inquiry and  
the place of that inquiry in schools It lays out the ways in which inquiry is fundamental to teaching and learning in a  
democracy in which all of the members of the community have a voice in deciding curricular directions and ways of  
presenting learning Teachers are presented as thinkers and learners not merely as technicians enacting others views of what  
is to be learned and when Readers will find teachers dealing with the real issues of life in schools they will see how teachers  
can use their existing situations as points of departure for their growth and their students learning      Bibliographic Guide to

Instead UPA s films were innovative and graphically bold the cartoon equivalent to modern art When Magoo Flew is the first

an American filmmaker photographer and theorist who bridged the experimental film and contemporary art worlds in the  
1960s and 1970s Best known for avant garde films including *Zorns Lemma* 1970 and *nostalgia* 1971 Frampton spent his later  
years working on the unfinished epic *Magellan* a monumental cycle that used the metaphor of Ferdinand Magellan s  
circumnavigation of the world to rethink the natures and meanings of history modernity and cinema Frampton s career was  
cut short by cancer at age 48 with his vast ambitions for the project left incomplete This book is a groundbreaking and  
comprehensive account of this remarkable figure s work in its totality from Frampton s earliest films through *Magellan*  
Michael Zryd explores the connections linking Frampton s art and thought to other media forms histories and cultural  
frameworks He foregrounds Frampton s notion of the infinite cinema which redefined the parameters of the medium to  
encompass all forms of moving image and sound media across the past and future of cinematic possibility Zryd analyzes  
Frampton s ambivalent relationship with modernism and the Enlightenment showing how the artist navigated between  
attraction to radical artistic investigation and awareness of this tradition s implication in colonialism and other oppressive  
power structures Shedding new light on Frampton s project of exploring and critiquing how cinema attempts to capture and  
understand the world this book also considers his significance for contemporary art      The Video Source Book David J.
