Losers In Space:

Losers in Space John Barnes, 2012-04-12 It is the year 2129 and fame is all that matters Susan and her friends are celebutantes Their lives are powered by media awareness fed by engineered meals and underscored by cynicism Everyone has a rating the more viewers who ID you the better So Susan and her almost boyfriend Derlock cook up a surefire plan the nine of them will visit a Mars bound spaceship and stow away Their survival will be a media sensation boosting their ratings across the globe There s only one problem Derlock is a sociopath Breakneck narrative pointed cultural commentary warm heart accurate science a kickass heroine and a ticking clock who could ask for more *Losers in Space* R. L. Stine, 1991

Griffin, Brian Newman, 2008-09-15 Are the views of Latinos and African Americans underrepresented in our federal government For that matter what does it mean to be represented equitably Rather than taking for granted a single answer to these complex questions John Griffin and Brian Newman use different measures of political equality to reveal which groups get what they want from government and what factors lead to their successes One of the first books to compare the representation of both African Americans and Latinos to that of whites *Minority Report* shows that congressional decisions

and federal policy tend to mirror the preferences of whites as a group and as individuals better than the preferences of either minority group even after accounting for income disparities This is far from the whole story though and the authors multifaceted approach illustrates the surprising degree to which group population size an issue s level of importance the race or ethnicity of an office holder and electoral turnout can affect how well government action reflects the views of each person or group Sure to be controversial Minority Report ultimately goes beyond statistical analyses to address the root question of what equal representation really means The Whole Story John E.
