trains hot air balloons cars submarines and moon rockets humans have combined imagination daring and technical brilliance to create new vehicles and improve existing ones Geography and culture have influenced the development of vehicles in far flung parts of the world and human travel has in turn exerted a profound influence on society and the environment Whether escaping deprivation pestilence persecution oppression or fear or seeking abundance freedom fame fortune or a fresh start we have always been a traveling species and it seems we always will be Here is the story of humankind s restless impulse to see what s over the next ridge beyond the next sunrise on the next planet Enjoy the journey Fountas Pinnell Level Z
