Quill & Quire ,2001 Sustainability in an Imaginary World David Maggs,John Robinson,2020-02-04 Sustainability in an Imaginary World explores the social agency of art and its connection to complex issues of sustainability Over the past decade interest in art s agency has ballooned as an increasing number of fields turn to the arts with ever expanding

expectations Yet just as art is being heralded as a magic bullet of social change research is beginning to throw cautionary light on such enthusiasm challenging the linear prescriptive instrumental expectations such transdisciplinary interactions often imply In this art finds itself at a treacherous crossroads unable to turn a deaf ear to calls for help from an increasing number of ostensibly non aesthetic fields yet in answering such prescriptive urgencies jeopardizing the very power for which its help was sought in the first place This book goes in search of a way forward proposing a theory of art aiming to preserve the integrity of arts practices within transdisciplinary mandates This approach is then explored through a series of case studies developed in collaboration with some of Canada s most prominent artists including internationally renowned nature poet Don McKay Italian composer and Head of Vancouver New Music Giorgio Magnanesi the renowned Electric Company Theatre led by Kevin Kerr and finally through a largescale multimedia installation aiming to reimagine the relationship between climate culture and human agency Sustainability in an Imaginary World will be of great interest to students and scholars of arts based research fields sustainability studies and environmental humanities

Herbert David Croly,1984 **The British National Bibliography** Arthur James Wells,2003 **Death and the Doctor**

,1997 This book presents three versions of the Godfather Death motif in English translations as well as the original Spanish A desperate man makes a pact with Death in order to alleviate pain or sorrow or poverty Death then makes him a doctor and endows him with the ability to predict life or death and thus he feathers his nest and his fortune turns In the end however Death demands its pound of flesh and the day of reckoning arrives The three authors of these Death and the Doctor tales are three of nineteenth century Spain s most well known short story writers Fernan Caballero Cecilia Bohl de Faber 1796 1877 first published Juan Holgado y la muerte Juan Holgado and Death in 1850 It stands out for its humor relating Fernan Caballero s hapless paterfamilias attempt to escape his numerous children in order to feast on a rabbit only to have Death in the shape of an old woman snatch it from his hands Antonio de Trueba 1819 89 first published Tragaldabas Glutton in 1867 The main characteristic of Trueba s piece is its satire and scathing portrayal as well as condemnation of the medical profession Death s Friend is much more ambitious than Fernan Caballero s and Trueba s tales and in length approaches a short novel It is essentially a love story Gil Gil and Elena ill starred lovers are reunited through divine intervention as both Elena and Death petition God on Gil Gil s behalf Taken together these three Death and the Doctor tales fill a void in the Godfather Death motif of Western European literature and highlight the universality of Spain s folk tradition **BOOK JACKET** Title Summary field provided by Blackwell North America Inc All Rights Reserved
