Moore, 2015-08-01 Sixty thousand years ago Earth had two more continents than it does today each larger than what we now know as Australia Why are they no longer there One of these additional continents Atlantis was located in the Atlantic Ocean between North America and Africa The other Lemuria was located in the Pacific Ocean In this book you ll learn all about these huge continents and the great civilizations who called them home What did they look like What was daily life like for them What happened to them Tom asks these intriguing questions and many more The answers revealed on the pages within dig into the mysteries surrounding the continents of Atlantis and Lemuria and their eventual destructions Lost Continents & the Hollow Earth David Hatcher Childress, Richard S. Shaver, 1999 This book is Childress thorough examination of the early hollow earth stories of Richard Shaver and the fascination that fringe fantasy subjects such as lost continents UFOs and the hollow earth have had on people Shaver s rare 1948 book *I Remember Lemuria* is reprinted in its entirety and the book is packed with illustrations from Ray Palmer s *Amazing Stories* issues of the 1940s Childress discusses famous hollow earth books and delves deep into whatever reality may be behind the stories of tunnels underground Vanished Islands and Hidden Continents of the Pacific Patrick D. Nunn, 2008-10-31 Islands as well as entire continents are reputed to have disappeared in many parts of the world Yet there is little information on this subject concerning its largest ocean the Pacific Over the years geologists have amassed data that point to the undeniable fact of islands having disappeared in the Pacific a phenomenon that the oral traditions of many groups of Pacific Islanders also highlight There are even a few instances where fragments of Pacific continents have disappeared becoming hidden from view rather than being submerged In this scientifically rigorous yet readily comprehensible account of the fascinating subject of vanished islands and hidden continents in the Pacific the author ranges far and wide from explanations of the region s ancient history to the meanings of island myths Using both original and up to date information he shows that there is real value in bringing together myths and the geological understanding of land movements A description of the Pacific Basin and the ups and downs of the land within its vast ocean is followed by chapters explaining how long before humans arrived in this part of the world islands and continents that no longer exist were once present A succinct account is given of human settlement of the region and the establishment of cultural contexts for the observation of occasional catastrophic earth surface changes and their encryption in folklore The author also addresses the persistent myths of a sunken continent in the Pacific which became widespread after European arrival and were subsequently incorporated into new age and pseudoscience explanations of our planet and its inhabitants Finally he presents

original data and research on island disappearances witnessed by humans recorded in oral and written traditions and judged by geoscience to be authentic Examples are drawn from throughout the Pacific showing that not only have islands collapsed and even vanished within the past few hundred years but that they are also liable to do so in the future **Lost Continents**

Lyon Sprague De Camp,1954 **The Lost Continent** Charles John Cutcliffe Wright Hyne,2015-11-26 The finest tale ever written of fabled Atlantis The Lost Continent is a sweeping fiery saga of the last days of the doomed land Atlantis at the height of its power and glory is without equal It has established far flung colonies in Egypt and Central America and its mighty navies patrol the seas The priests of Atlantis channel the elemental powers of the universe and a powerful monarch rules from a staggeringly beautiful city of pyramids and shining temples clustered around a sacred mountain Mighty Atlantis is also decaying and corrupt Its people are growing soft and decadent and many live in squalor Rebellion is in the air and prophecies of doom ring forth Into this epic drama of the end of time stride two memorable characters the warrior priest Deucalion stern just and loyal and the Empress Phorenice brilliant ambitious and passionate The old and new Atlantis collide in a titanic showdown between Deucalion and Phorenice a struggle that soon affects the destiny of an entire civilization

**The Lost Continent** Edgar Rice Burroughs, 2005-11-01 I could not repress a sigh at the thought of the havoc war had wrought in this part of England at least Farther east nearer London we should find things very different There would be the civilization that two centuries must have wrought upon our English cousins as they had upon us There would be mighty cities cultivated fields happy people There we would be welcomed as long lost brothers There would we find a great nation anxious to learn of the world beyond their side of thirty as I had been anxious to learn of that which lay beyond our side of the dead line Edgar Rice Burroughs created one of the most iconic figures in American pop culture Tarzan of the Apes and it is impossible to overstate his influence on entire genres of popular literature in the decades after his enormously winning pulp novels stormed the public's imagination The Lost Continent is one of the rarest and least known of Burrough's thrilling science fiction adventure stories Since its first appearance in the February 1916 issue of All Around Magazine under the title Beyond Thirty it has languished in undeserved obscurity In the year 2137 global civilization has been in decline for nearly two centuries and war ruined Europe is but a distant memory practically a legend to the isolationist United States But one intrepid American traveler is about to rediscover the Old World which has become a startling and savage land in its solitude American novelist EDGAR RICE BURROUGHS 1875 1950 wrote

dozens of adventure crime and science fiction novels that are still beloved today including Tarzan of the Apes 1912 At the Earth's Core 1914 A Princess of Mars 1917 The Land That Time Forgot 1924 and Pirates of Venus 1934 He is reputed to have been reading a comic book when he died     *Lemuria* Wishar Spenle Cervé, 1931     **Illustrations of the Methods of Reasoning** Daniel Sommer Robinson, 1927     **The Journal of Geology** Thomas Chrowder Chamberlin, 1914 Vols for 1893 1923 includes section Reviews     A school geography Charles Bird (B.A., F.R.A.S.), 1898     *Our Story of Atlantis* William P.
