**The Lost Language** Claudia Mills,2021-10-19 The quest to save the words of a dying language and to find the words to save what may be a dying friendship lies at the heart of this exquisite verse novel Sixth grader Betsy is the one who informs her best friend Lizard that thousands of the world's languages are currently threatened by extinction Betsy's mother is a linguistics professor working frantically to study dying languages before they are lost forever But it is Lizard who gripped by the magnitude of this loss challenges Betsy What if instead of WRITING about dying languages like your mom you and I SAVED one instead As the girls embark on their quest to learn as much as possible of the near extinct language of Guernsais spoken on the Isle of Guernsey off the coast of France their friendship faces unexpected strains With Lizard increasingly obsessed with the language project Betsy begins to seek greater independence from her controlling and charismatic friend as well as from her controlling and charismatic mother Then tragedy threatens Betsy's life beyond what any words can express and Lizard does something unthinkable Maybe lost friendships like lost languages can never be completely saved An NCTE Notable Verse Novel A Charlotte Huck Recommended Book A Mighty Girl Best Book of the Year A Bulletin of the Center for Children's Books Blue Ribbon Book A Junior Library Guild Gold Standard Selection

*Three Introductory Lectures on the Science of Language* Friedrich Max Müller,1899 *Studies in Urhobo Culture* Peter Palmer Ekeh,2005 This unique book is the product of pioneering research carried out by scholars native to the Urhobo culture and language Unlike many of the other major ethnic cultures in Nigeria which were studied by Western anthropologist in the nineteenth and twentieth centuries the Urhobo language and culture remained neglected Studies in Urhobo Culture represents a comparatively new area of research approached from an indigenous perspective The result is a wide ranging survey of Urhobo culture in Nigeria offering diverse perspectives on topics such as naming traditions and practices of the Urhobo religious beliefs values and movements traditions of marriage artistic productions food and dress subcultures and the geography of Urhoboland and agricultural practices In depth consideration is given to Urhobo traditional poetry and the intellectual aspects of Urhobo culture and language within the wider complex of the Edoid languages and cultures The contributors further situate the language question within the global context of language endangerment arguing the Urhobo case is an example of how English and Pidgin are imperilling small and medium sized languages in Africa and weakening the hold of indigenous cultures on the younger generation

*The Poetics of Reading* Eitel Friedrich Timm,Kenneth Mendoza,1993 Situates the act of critical reading in the context of poetic aesthetics This volume situates the act of critical reading in the context of poetic aesthetics Running alongside recent post structuralist theories the textuality of such matters as literary discourse history media philosophy and religion has emerged as a focal point of debate in the humanities The essays here examine how questions of the canon genres and transformation of texts challenge the present epistemological situation taking an interdisciplinary approach to textual readings their methodology is drawn from a range of literary figures and critics

including Lessing Kafka Walter Benjamin and Derrida The study also addresses the controversial predicament of subjectivity as one of the key terms in current literary and historical scholarship **Convergence: English and Nigerian Languages** Ndimele, Ozo-mekuri,2016-02-22 The present volume which is the 5th in the Nigerian Linguists Festschrift Series is devoted to Professor Munzali A Jibril a celebrated icon in university administration and an erudite Professor of English Linguistics The title of this special edition was specifically chosen to crown Professor Jibril's academic prowess in both English and indigenous Nigerian languages and to mark and laud his official departure from active university lectureship 72 assessed papers are included from the many submitted Papers cover the main theme of the volume i.e the interaction between English and indigenous Nigerian languages and there are a number of papers on other secular areas of linguistics such as language and history language planning and policy language documentation language engineering lexicography translation gender studies language acquisition language teaching and learning pragmatics discourse and conversational analysis and literature in English and African languages There is also a rich section devoted to the major traditional fields of linguistics phonology morphology syntax and semantics **Linguistic Ideologies of Native American Language Revitalization** David Leedom

Shaul,2014-03-31 The concept of this volume is that the paradigm of European national languages official orthography language standardization full use of language in most everyday contexts is imposed in cookie cutter fashion on most language revitalization efforts of Native American languages While this model fits the sovereign status of many Native American groups it does not meet the linguistic ideology of Native American communities and creates projects and products that do not engage the communities which they are intended to serve The concern over heritage language loss has generated since 1990 enormous activity that is supposed to restore full private and public function of heritage languages in Native American speech communities The thinking goes if you do what the volume terms the Lost Language Ghost Dance your heritage language will flourish once more Yet the heritage language only flourishes on paper and not in any meaningful way for the community it is trying to help Instead this volume proposes a model of Native American language revitalization that is different from the national official language model one that respects and incorporates language variation and entertains variable outcomes This is because it is based on Native American linguistic ideologies This volume argues that the cookie cutter application of the official language ideology is unethical because it undermines the intent of language revitalization itself the continued daily meaningful use of a heritage language in its speech community **Lost Languages** Andrew Robinson,2008-03 Moves on to dissect the most wellknown and enigmatic undeciphered scripts from around the world They include the Etruscan alphabet of Italy the Indus Valley seal script Rongorongo from remote Easter Island the Zapotec script of Mexico probably the first writing system in the Americas and the unique Phaistos disc of Crete Provided by publisher **A Companion to the Works of Kim Scott** Belinda Wheeler,2016 Notes on the Contributors Index **An Exploration of a New Poetic Expression Beyond Dichotomy** Shin'ichiro Ishikawa,2004 This study attempts to re evaluate Lawrence's poetry

which has often been read as a set of biographical documents or supplementary notes to his novels as fully independent literary work in the light of post modern critical theory The author carefully examines how Lawrence needed to misread his precursors the nineteenth century Romantics to establish himself as one of the modern poets What separates his poetry from his precursors is his self consciousness as a modern poet His search for radical freedom in language and his meta poetic exploration of a new poetic expression make him a true pioneer of the terra incognita in English poetry **A Treasury of American-Jewish Folklore** Steve Koppman,Lion Koppman,1998-05-31 To find more information on Rowman Littlefield titles please visit us at [www.rowmanlittlefield.com](http://www.rowmanlittlefield.com) *Origins of the English People and the English Language* Jean Roemer,1888
