## Lost Oasis:

**Blue Eclipse Book II** Patrick Joseph, 2020-11-12 A poetic story rhyme that is a compilation of scripted youthful times Within these pages is a shard from a greater story that chronicles the legacy of characters meant for the entertainment each individually purposed for a grand design And as the wheels of fate turn each character will play their part unable to understand the greater role they partake in within the great theatrics of the world play Each figure within this are pulled from historical sources past and present with subtle liberties to flesh out the true nature of their character So as disparate destined paths cross into the other and intersect the fiery ambition they possess will become their sword while the purity of their immortal soul will become their shield individually designed to protect a sincere dream while defending their outer shell from being torn away from this mortal coil And as each soul delves beyond the grip of the unfamiliar of their opening acts a threshold would demand to be crossed as they individually with warm hearts and open minds yearn for meaning as they individually await a glimpse of their true purpose escaping the confines of ephemeral restraints to push to a space that exists beyond sight

**Cartographic Fictions** Karen Lynnea Piper, 2002 Maps are stories as much about us as about the landscape They reveal changing perceptions of the natural world as well as conflicts over the acquisition of territories Cartographic Fictions looks at maps in relation to journals correspondence advertisements and novels by authors such as Joseph Conrad and Michael Ondaatje In her innovative study Karen Piper follows the history of cartography through three stages the establishment of the prime meridian the development of aerial photography and the emergence of satellite and computer mapping Piper follows the cartographer's impulse to leave the ground as the desire to escape the racialized or gendered subject With the distance that the aerial view provided maps could then be produced objectively that is devoid of problematic native interference Piper attempts to bring back the dialogue of the native informant demonstrating how maps have historically constructed or betrayed anxieties about race The book also attempts to bring back key areas of contact to the map between explorer native and masculine feminine definitions of space
