Monster Of God:

Monster of God: The Man-Eating Predator in the Jungles of History and the Mind David Quammen,2004-09-17

Rich detail and vivid anecdotes of adventure A treasure trove of exotic fact and hard thinking New York Times Book Review For millennia lions tigers and their man eating kin have kept our dark scary forests dark and scary and their predatory majesty has been the stuff of folklore But by the year 2150 big predators may only exist on the other side of glass barriers and chain link fences Their gradual disappearance is changing the very nature of our existence We no longer occupy an intermediate position on the food chain instead we survey it invulnerably from above so far above that we are in danger of forgetting that we even belong to an ecosystem Casting his expert eye over the rapidly diminishing areas of wilderness where predators still reign the award winning author of *The Song of the Dodo* and *The Tangled Tree* examines the fate of lions in India s Gir forest of saltwater crocodiles in northern Australia of brown bears in the mountains of Romania and of Siberian tigers in the Russian Far East In the poignant and troublesome ferocity of these embattled creatures we recognize something primeval deep within us something in danger of vanishing forever *God's Monsters* Esther J. Hamori,2023-10-31 The Bible is teeming with monsters Giants tromp through the land of milk and honey Leviathan swims through the wine dark sea A stunning array of peculiar creatures mind altering spirits and supernatural hitmen fill the biblical heavens jarring in both their strangeness and their propensity for violence especially on God s behalf Traditional interpretations of the creatures of the Bible have sanded down their sharp unsavory edges transforming them into celestial beings of glory and light or chubby happy cherubs Those cherubs They re actually hybrid guardian monsters more closely associated with the Egyptian sphinx than with flying babies And the seraphim Winged serpents sent to mete out God s vengeance Demons aren t at war with angels they re a distinct supernatural species used by Satan and by God The pattern is chilling Most of these monsters aren t God s opponents they re God s entourage Killer angels plague demons manipulative spirits creatures with an alarming number of wings and eyes all over these shapeshifters and realm crossers act with stunning brutality each reflecting a facet of God s own monstrosity Confronting God s monsters and the God monster may be uncomfortable but the Bible is richer for their presence It s not only richer the stories of the monsters of the Bible can be as fun surprising and interesting as any mythology For anyone interested in monsters myths folklore demons and more God s Monsters is an entertaining deep dive into the creaturely strangeness of the Bible

Monster-God of Mamurth Edmond Hamilton, 2013-04-08. Here is a collection of some of the finest short fiction stories penned by one of the fathers of modern science fiction. These stories were selected and edited by his wife Leigh Brackett an author and a screenwriter. Monster Mary K. Wakeman, 1973-01-01. **The Aztec Book of Destiny** Rick Holmer, 2005-09. The Aztec Book of Destiny summarizes traditional Mesoamerican beliefs about the spiritual nature of time and its influence on one's personality and fate. The ancient Aztec, Toltec, and Maya believed that the day of birth as defined in their sacred calendar affects destiny and this philosophy has guided their daily lives for more than 3000 years. This book condenses the scattered and disparate literature about these beliefs into a fun and informative narrative but it goes far beyond what academics and popular authors have published to date. The author presents a unique perspective shaped by the wisdom of a traditional calendar keeper he met in Mexico in 1973. The book's message is that the calendar is not simply an ancient and forgotten curiosity; it is as relevant today as in ancient times. The majority of the book projects the timeless Mesoamerican philosophy into contemporary Western society encouraging introspection and self-awareness. **Is God a Moral Monster?** Paul Copan, 2011-01-01. A

recent string of popular level books written by the New Atheists have leveled the accusation that the God of the Old Testament is nothing but a bully, a murderer, and a cosmic child abuser. This viewpoint is even making inroads into the church. How are Christians to respond to such accusations? And how are we to reconcile the seemingly disconnected natures of God portrayed in the two testaments? In this timely and readable book, apologist Paul Copan takes on some of the most vexing accusations of our time, including: God is arrogant and jealous; God punishes people too harshly; God is guilty of ethnic cleansing; God oppresses women; God endorses slavery; Christianity causes violence and more. Copan not only answers God's critics; he also shows how to read both the Old and New Testaments faithfully, seeing an unchanging, righteous, and loving God in both. **God's Monsters** Esther J. Hamori, 2023. The Bible is full of monsters, giants, vengeful spirits, and more. If you read closely, you'll see these monsters aren't God's opponents; they are God's entourage. When we examine these strange creatures for what they are, we see how they validate the human experience living in a world that is unpredictable, unjust, and at times

monstrous The Psychology of Religious Mysticism James Henry Leuba,1929 This classic study examines a problem that stands at the heart of society How does a child distinguish between right and wrong Professor Piaget and his colleagues begin their investigation by analyzing the rules of the game in this case a seemingly simple game of marbles as handed down from one group of children to another They observe the child s total acceptance of the consensus rules and describe the moral pressure of the group on the individual Piaget proceeds to an analysis of lying cheating adult authority punishment and responsibility noting and evaluating the changing attitudes of growing children toward these moral realities The book concludes with a comparison of the findings of this significant study with those theories in social psychology and sociology that bear directly on the moral development of the child *The Novels of Fyodor Dostoevsky: The Brothers Karamazov* Fyodor Dostoyevsky,1926
