Capitalism Hates You Joshua Gooch, 2025-03-11 What contemporary horror films teach us about the cruelties of capitalist society *Capitalism Hates You* uses the horror film genre as a tool to diagnose and expose the hostile conditions of life under capitalism Through incisive critical analyses of popular films such as *Get Out* *Drag Me to Hell* *Hereditary* *The Babadook* and many others Joshua Gooch draws connections between Marxist theory and contemporary narratives of psychological unease Gooch highlights the work of women trans and nonwhite filmmakers to show how the remarkable diversity of twenty first century horror cinema can provide an expansive catalog of capitalism s varying forms of oppression Studying films that interrogate such urgent topics as gentrification climate change and reproductive labor he demonstrates how contemporary horror films give affective shape to the negative undercurrents of our present socioeconomic system *Capitalism Hates You* argues that these films and their material conditions can deepen our understanding of essential concepts in contemporary Marxism from the theory of value and changing forms of commodification to the labor of social reproduction the abolition of the family and the necessity of ecosocialism Synthesizing various strands of Marxist thought Gooch sheds light on the growing field of socially conscious horror films examining how they pinpoint and exaggerate latent feelings of dread and discomfort to reflect the ills of society Retail e book files for this title are screen reader friendly with images accompanied by short alt text and or extended descriptions **Foucault and Law** Ben Golder, 2017-07-05 Few thinkers can have had a more diverse or a more contested impact on theorizing law than Michel Foucault This diversity is reflected in the wide range of

Foucault's work and of the intellectual fields it has so conspicuously influenced. Such diversity informs the present collection and is signalled in the headings of its four sections: Epistemologies, archaeology, discourse, Orientalism, Political philosophy, discipline, governmentality and the genealogy of law, Embodiment, difference, sexuality and the law. The subject of rights and ethics. Whilst the published work selected for this collection amply accommodates this diversity, it also draws together strands in Foucault's work that coalesce in seemingly conflicting theories of law. Yet the editors are also committed to showing how that very conflict goes to constitute for Foucault an integral and radical theory of law. This theory ranges not just beyond the restrained and diminished conceptions of law usually derived from Foucault but also beyond the characteristic concern in Jurisprudence and Legal Philosophy to constitute law in its difference and separation from other socio-political forms.

Culture and Social Transformations Tianyu Cao, Xueping Zhong, Liao Kebin, Ban Wang, 2013-10-24. As China enters the second decade of the 21st century, it faces tremendous challenges and crisis. How did China arrive at this point of crisis? How do we understand the nature of the challenges? More than any existing study of reform-era China, this volume offers a theoretical discussion of the cultural and social roots of the reform. It does so for the purpose of further exploring whether or not it is possible to imagine alternatives. Contributors to this second volume of *Culture and Social Transformations in Reform Era China* address these questions by exploring some of the most contentiously debated topics, including liberalism, human rights, rule of law, the state, capitalism and socialism.

The Universal Adversary Mark Neocleous, 2016-02-12. The history of bourgeois modernity is a history of the Enemy. This book is a radical exploration of an Enemy that has recently emerged from within security documents released by the US security state: the Universal Adversary. The Universal Adversary is now central to emergency planning in general and more specifically to security preparations for future attacks. But an attack from who or what? This book, the first to appear on the topic, shows how the concept of the Universal Adversary draws on several key figures in the history of ideas said to pose a threat to state power and capital accumulation. Within the Universal Adversary, there lies the problem not just of the terrorist but more generally of the subversive and what the emergency planning documents refer to as the disgruntled worker. This reference reveals the conjoined power of the contemporary mobilisation of security and the defence of capital. But it also reveals much more. Taking the figure of the disgruntled worker as its starting point, the book introduces some of this worker's close cousins, figures often regarded not simply as a threat to security and capital but as nothing less than the Enemy of all Mankind: the Zombie, the Devil and the Pirate. In situating these figures of enmity within debates about security and capital, the book engages an extraordinary variety of issues that now comprise contemporary politics of security. From crowd control to contagion, from the witch hunt to the apocalypse, from pigs to intellectual property, this book provides a compelling analysis of the ways in which security and capital are organized against nothing less than the Enemies of all Mankind.
