Mediaeval Trade And Finance:

Mediaeval Trade and Finance Michael Moissej Postan, 1973-06-21 A collection of Professor Postan's major essays on medieval trade and finance

Medieval Trade and Finance Mojsej Michail Efimovic Postan, 1973 *Mediaeval Trade and Finance* M. M. Postan, 2002-08-22 Professor Postan's work on the social and economic history of the Middle Ages has had an enormous influence upon the study of medieval history and upon the development of the subject His essays represent his major contribution and are a unique and valuable addition to the literature Twenty two essays are gathered together into two volumes Essays on Medieval Agriculture and General Problems of the Medieval Economy and Medieval Trade and Finance Previously published elsewhere frequently in obscure places over a period from 1928 to 1972 they are still used today by students and scholars in all branches of medieval and economic history as well as by social scientists and economists more generally

Credit and Trade in Later Medieval England, 1353-1532 Richard Goddard, 2016-06-21 This book challenges the notion that economic crises are modern phenomena through its exploration of the tumultuous credit crunch of the later Middle Ages It illustrates clearly how influences such as the Black Death inter European warfare climate change and a bullion famine occasioned severe and prolonged economic decline across fifteenth century England Early chapters discuss trends in lending and borrowing and the use of credit to fund domestic trade through detailed analysis of the Statute Staple and rich primary sources The author then adopts a broad based geographic lens to examine provincial credit before focusing on London's development as the commercial powerhouse in late medieval business Academics and students of modern economic change and historic financial revolutions alike will see that the years from 1353 to 1532 encompassed immense upheaval and change reminiscent of modern recessions The author carefully guides the reader to see that these shifts are the precursors of economic change in the early modern period laying the foundations for the financial world as we know it today

Handbook of Banking and Financial History Youssef Cassis, Richard S. Grossman, Catherine Ruth Schenk, 2016 The financial crisis of 2008 aroused widespread interest in banking and financial history Contributions to this volume analyse banking and financial history in a long term comparative perspective Lessons drawn from these analyses may well help future generations of policy makers avoid a repeat of the financial turbulence that erupted in 2008 **Capitalism** Sven Beckert, 2025-11-25 A New York Times Notable Book A Financial Times Best Book of the Year A learned formidable and vivid story Readers around the world will study and ponder this monumental work of history agreeing and arguing with it all the while affirming its generational importance for decades to come Marcus Rediker The New York Times Epic Read this book and you will learn innumerable things you did not previously know culled from places you have never been Readers including me will be genuinely grateful for exposure to this breadth of scholarship and be glad to have a valuable tool of reference on their shelves John Kay Financial Times A landmark event years in the making a brilliant global narrative that unravels the defining story of the past thousand years of human history No other phenomenon has shaped human history as decisively as capitalism It structures how we live and work how we think about ourselves and others how we organize our politics Sven Beckert author of the Bancroft Prize winning *Empire of Cotton* places the story of capitalism within the largest conceivable geographical and historical framework tracing its history during the past millennium and across the world An epic achievement his book takes us into merchant businesses in Aden and car factories in Turin onto the terrifyingly violent sugar plantations in Barbados and within the world of women workers in textile factories in today's Cambodia Capitalism argues Beckert was born global Emerging from trading communities across Asia Africa and Europe capitalism's radical recasting of economic life rooted itself only gradually But then it burst onto the world scene as a powerful alliance between European states and merchants propelled them and their economic logic across the oceans This Beckert shows was modern capitalism's big bang and one of its epicenters was the slave labor camps of the Caribbean This system with its hierarchies that haunt us still provided the liftoff for the radical transformations of the Industrial Revolution Fueled by vast productivity increases along with coal and oil capitalism pulled down old ways of life to crown itself the defining force of the modern world This epic

drama shaped by state backed institutions and imperial expansion corresponded at no point to an idealized dream of free markets Drawing on archives on six continents Capitalism locates important modes of agency resistance innovation and ruthless coercion everywhere in the world opening the aperture from heads of state to rural cultivators Beckert shows that despite the dependence on expansion there always have been and are still areas of human life that the capitalist revolution has yet to reach By chronicling capitalism s global history Beckert exposes the reality of the system that now seems simply natural It is said that people can more easily imagine the end of the world than the end of capitalism If there is one ultimate lesson in this extraordinary book it s how to leave that behind Though cloaked in a false timelessness and universality capitalism is in reality a recent human invention Sven Beckert doesn t merely tote up capitalism s debits and credits He shows us how to look through and beyond it to imagine a different and larger world
