Medical Data Management:

Medical Data Management Florian Leiner, Wilhelm Gaus, Reinhold Haux, Petra Knaup-Gregori, 2003-01-14 Medical Data Management is a systematic introduction to the basic methodology of professional clinical data management. It emphasizes generic methods of medical documentation applicable to such diverse tasks as the electronic patient record, maintaining a clinical trials database and building a tumor registry. This book is for all students in medical informatics and health information management and it is ideal for both the undergraduate and the graduate levels. The book also guides professionals in the design and use of clinical information systems in various health care settings. It is an invaluable resource for all health care professionals involved in designing, assessing, adapting or using clinical data management systems in hospitals, outpatient clinics, study centers, health plans etc. The book combines a consistent theoretical foundation of medical documentation methods with their practical applicability in real clinical data management systems. Two new chapters detail hospital information systems and clinical trials. There is a focus on the international classification of diseases ICD 9 and 10 systems as well as a discussion on the difference between the two codes. All chapters feature exercises, bullet points and a summary to provide the reader with essential points to remember. New to the Third Edition is a comprehensive section comprised of a combined Thesaurus and Glossary which aims to clarify the unclear and sometimes inconsistent terminology surrounding the topic.

Practical Guide to Clinical Data Management Susanne Prokscha, 2011-10-26 The management of clinical data from its collection during a trial to its extraction for analysis has become a critical element in the steps to prepare a regulatory submission and to obtain approval to market a treatment. Groundbreaking on its initial publication nearly fourteen years ago and evolving with the field in each iteration since then.
