Major topics discussed include anatomy, optics, pharmacology, genetics, embryology, disorders of the cornea and conjunctiva, glaucoma, strabismus, disorders of the retina and vitreous, ocular tumors, systemic diseases and the eye, neuro-ophthalmology, cataract surgery, intraocular lenses, glaucoma surgery, corneal surgery, eyelid, lacrimal and orbital surgery, laser surgery and retinal and vitreous surgery. A new chapter on refractive surgery has been added to this rapidly expanding subspecialty. **A**

Thesaurus of Medical Word Roots Horace Gerald Danner,2013-08-15 Dr Horace Gerald Danner's A Thesaurus of Medical Word Roots is a compendium of the most used word roots of the medical and health care professions. All word roots are listed alphabetically along with the Greek or Latin words from which they derive together with the roots' original meanings. If the current meaning of an individual root differs from the original meaning that is listed in a separate column. In the examples column the words which contain the root are then listed starting with their prefixes. For example esthesia which means 'feeling' has as its prefixed roots alloesthesia, anesthesia, and dyesthesia. The listing then switches to words where the root itself forms the beginning such as esthesiogenesis or esthesioneuroblastoma. These root starting terms then are followed by words where the root falls in the middle or the end as in acanthesthesia, cryesthesia, or osmesthesia. In this manner A Thesaurus of Medical Word Roots places the word in as many word families as there are elements in the word. This work will interest not only medical practitioners but linguists and philologists and anyone interested in the etymological aspects of medical terminology. **National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1991 **English for Medical Communication** Clarence Wenfeng Wang,2025-02-28 English for Medical Communication A Guide to Course Design is a practical guide to the design of health communication courses in English for Academic Specific Purposes EAP
