Langellier, 2020-10-15 On a hot summer's day in Montana a daring frontier cavalry officer Powhatan Henry Clarke died at the height of his promising career A member of the U S Military Academy's Class of 1884 Clarke graduated dead last and while short on academic application he was long on charm and bravado Clarke obtained a commission with the black troops of the Tenth Cavalry earning his spurs with these Buffalo Soldiers He evolved into a fearless field commander at the troop level gaining glory and first hand knowledge of what it took to campaign in the West During his brief action packed career Clarke saved a black trooper's life while under Apache fire and was awarded the Medal of Honor A chance meeting brought Clarke together with artist Frederic Remington who brought national attention to Clarke when he illustrated the exploit for an 1886 Harper's Weekly The officer and artist became friends and Clarke served as a model and consultant for future artwork by Remington Remington's many depictions of Clarke added greatly to the cavalryman's luster In turn the artist gained fame and fortune in part from drawing on Clarke as his muse The story of these two unlikely comrades tells much about the final stages of the Wild West and the United States emergence on the international scene Along the way Geronimo The Apache Kid Texas John Slaughter and others played their roles in Clarke's brief but compelling drama **Public Health Service Publication** ,1966 **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), 1965 *The Kansas City Meningitis Epidemic, 1911-1913*

Margaret R. O'Leary MD, Dennis S. O'Leary MD, 2019-02-22 In *The Kansas City Meningitis Epidemic 1911 1913* Violent and Not Imagined two physician authors present the dramatic medical history of a monstrous midwestern disease epidemic The authors bring the events to startling life by skillfully drawing on original texts that evoke the resolute efforts of the Kansas City medical nursing and health department communities to care for the horribly stricken while inoculating the still well to prevent spread of the epidemic **The Journal of Arizona History**, 1997 **Medicine in the West** Glenda Riley, James O. Breeden, 1982

Mystic Healers & Medicine Shows Gene Fowler, 1997 Most of the histories of the West are obsessed with the shoot em ups But what about the patch em ups Who had to deal with all that famous carnage With all the bloodletting depicted by pop culture historians it almost seems a miracle anyone survived to settle the West Prior to World War II regular or allopathic physicians trained in mainstream medicine were often outnumbered by alternative practitioners folk curers herbalists faith healers homeopaths patent medicine promoters and medicine showmen *Mystic Healers and Medicine Shows* profiles many of the most significant of these healers as well as a few other colorful regular doctors

Medicine Women Cathy Luchetti, 1998 The story of American women in medicine is multi fold from their ascendancy as healers and midwives in colonial years to their gradual decline as they were eclipsed by men whose entrance into the medical ranks brought new standards of exclusionary professionalism All male medical schools and boards pushed healing women into the subcategory of midwife or nurse Nineteenth century women formed their own colleges and eventually forced themselves into competition with accepted medical institutions But they had to overcome society's Victorian grudge against any woman who wished to become a professional as well as the basic distrust of a rural population for medicine Understanding the stories of these medical pioneers their motivations hardships and conflicts assigns a human face to otherwise dry statistics From publisher description **American Medical Directory**, 1909 *Adult Catalog: Subjects* Los Angeles County Public Library, 1970 **Polk's Medical Register and Directory of North America**, 1904 **Statistics of Mines and Mining in the States and Territories West of the Rocky Mountains** United States.
