## **Medieval Religious Literature:**

*Medieval Religious Literature* Daniel Simon Evans, 1986      **The Translation of Religious Texts in the Middle Ages** Domenico Pezzini, 2008 The transition from Latin to vernacular languages in the late Middle Ages and the dramatic rise of a new readership produced a huge bulk of translations particularly of religious literature in its various genres The solutions are so multifarious that they defy any attempt to outline general theories This is particularly visible when the same text is translated or rewritten at different times and in different languages or genres Through a minute analysis of texts this book aims at highlighting lexical syntactic and stylistic choices dictated not only by the source but also by new readers and patrons or by new destinations of the works Established categories such as literalness and fidelity are thus questioned and integrated with these other factors which while being more external do nonetheless impinge on the very idea of translation and consequently on its assessment Far from being a mere transfer from one language to another a medieval translation verges on a form of creative writing and as such its study becomes a fascinating investigation into the very process of textual production      **Medieval Religious Literature in Sanskrit** Jan Gonda, 1977      **From Virile Woman to WomanChrist** Barbara Newman, 2011-12-16 Why did hagiographers of the late Middle Ages praise mothers for abandoning small children How did a group of female mystics come to define themselves as apostles to the dead and end by challenging God's right to damn Why did certain heretics around 1300 venerate a woman as the Holy Spirit incarnate and another as the Angelic Pope In *From Virile Woman to WomanChrist* Barbara Newman asks these and other questions to trace a gradual and ambiguous transition in the gender strategies of medieval religious women An egalitarian strain in early Christianity affirmed that once she asserted her commitment to Christ through a vow of chastity monastic profession or renunciation of family ties a woman could become virile or equal to a man While the ideal of the virile woman never disappeared another ideal slowly evolved in medieval Christianity By virtue of some gender related trait spotless virginity erotic passion the capacity for intense suffering the ability to imagine a feminine aspect of the Godhead a devout woman could be not only equal but superior to men without becoming male she could become a womanChrist imitating and representing Christ in uniquely feminine ways Rooted in women's concrete aspirations and sufferings Newman's womanChrist model straddles the bounds of orthodoxy and heresy to illuminate the farther reaches of female religious behavior in the Middle Ages *From Virile Woman to WomanChrist* will generate compelling discussion in the fields of medieval literature and history history of religion theology and women's studies      **Late-medieval Religious Texts and Their Transmission** Alastair J. Minnis, 1994 Dr Doyle's lively introductory address is followed by eleven studies which range widely over the different types and genres of religious literature which were produced in late medieval England paying attention to both verse and prose and representing the three literary languages of the time English French and Latin though concentrating on texts in English      Addressing Women in Early Medieval Religious Texts Kathryn Maude, 2021 An investigation into texts specifically addressed to women sheds new light on

female literary cultures From the tenth to the twelfth centuries in England and Scotland we have scant evidence of women's writing How then can we access these women's experiences This book argues that by analysing texts deliberately written for and addressed directly to women we gain an insight into the horizons of possibility for their lives It examines religious texts addressed to women bringing together works that are more widely studied with others that are less well known and demonstrates continuities across Old English and Latin texts written for female readers and patrons across the Conquest period Case studies ranging from Irfic's sermons to Aelred's *De institutione inclusarum* from the Life of Christina of Markyate to Goscelin's saints lives for Wilton and Barking Abbeys attend to the intimate scripts women were encouraged to inhabit through a close focus on the form of the textual address By concentrating on address the book illuminates how women were encouraged to live and by following women's commissioning and copying of texts it demonstrates which of these textual addresses women valued and attempted to follow n address the book illuminates how women were encouraged to live and by following women's commissioning and copying of texts it demonstrates which of these textual addresses women valued and attempted to follow n address the book illuminates how women were encouraged to live and by following women's commissioning and copying of texts it demonstrates which of these textual addresses women valued and attempted to follow

**Three Studies in Medieval Religious and Social Thought** Giles Constable, 1998-03-28 This volume of three Studies concentrates on the changes in religious thought and institutions in the eleventh and twelfth centuries and includes not only monks and nuns but also less organised types of life such as hermits recluses crusaders and penitents It is complementary to Professor Constable's forthcoming book *The Reformation of the Twelfth Century* but is dissimilar from it in examining three themes over a long

period from late antiquity to the seventeenth century in order to show how they changed over time The interpretation of Mary and Martha deals primarily but not exclusively with the balance of action and contemplation in Christian life the ideal of the imitation of Christ studies the growing emphasis on the human Christ especially His body and wounds and the orders of society looks at the conceptual divisions of society and the emergence of the modern idea of a middle class     **Looking in Holy Books** Vincent Gillespie,2006-10 This volume suggests new ways of reading and thinking about the religious culture of late medieval England It explores an unusually wide spectrum of Latin and vernacular religious texts from catechetic handbooks to descriptions of mystical experience and pays particular attention to the transmission and reception of these texts The book collects together some of Vincent Gillespie s most influential and important articles from the last twenty five years In addition the author offers a substantial introduction and commentary which looks at changes in the field as well as suggesting further reading and areas for future research The first section What to Read discusses lay access to devotional materials the second How to Read looks at vernacular texts and the modes of reading those texts facilitate and encourage while section three Writing the Ineffable considers mystical writing s affective and imaginative engagement with the ineffable     **References to the Material Text in Late Medieval English Religious Literature** Eleanor Baker,2021

**Reading the Middle Ages** Theodore L. Steinberg,2010-06-28 Medieval literature is separated from us by so many centuries that it may seem completely foreign both in its concerns and its techniques However this literature has much to say to 21st century readers and Steinberg s book demonstrates its continuing relevance and appeal This introduction to medieval literature provides some of the cultural context that readers need to know in order to understand the literature such as the religious orientation of the people often deep and sincere but sometimes treated casually or subjected to intense scrutiny The first chapter provides a brief explanation of medieval religious thought cosmology and intellectual history The remaining chapters provide introductions to a number of individual works ranging from Beowulf to the works of Chaucer Avoiding the tendency to regard the Middle Ages as an era dominated by Christian men these discussions include works by women writers and Jewish writers and a chapter on the medieval Japanese masterpiece The Tale of Genji Instructors considering this book for use in a course may request an examination copy here     [Library of Congress Subject Headings](#) Library of Congress.

Cataloging Policy and Support Office,1999     **Women's Use of Religious Literature in Late Medieval England** Anne Marie Dutton,1995     **Lectio Divina** Duncan Robertson,2011 During the Middle Ages the act of reading was experienced intensively in the monastic exercise of lectio divina the prayerful scrutiny of passages of Scripture savored in meditation memorized recited and rediscovered in the reader s own religious life The rich literary tradition that arose from this culture includes theoretical writings from the Conferences of John Cassian fifth century through the twelfth century treatises of Hugh of St Victor and the Carthusian Guigo II it also includes compilations literary meditations and scriptural commentary notably on the Song of Songs This study brings medievalist research together with modern theoretical reflections on the act
