## **Meditations Of First Philosophy:**

**Meditations on First Philosophy** René Descartes, 2019-08-09 *Meditations on First Philosophy* is a philosophical treatise written by René Descartes first published in Latin in 1641. The book is made up of six meditations in which Descartes first discards all belief in things which are not absolutely certain and then tries to establish what can be known for sure. The meditations were written as if he was meditating for 6 days; each meditation refers to the last one as 'yesterday'. However, Descartes did not take 6 days to complete this work; it actually took several years. *Meditations on First Philosophy* René Descartes, 1993-10-01 Descartes's *Meditations on First Philosophy*, the fundamental and originating work of the modern era in Western philosophy, is presented here in Donald Cress's completely revised edition of his well-established translation, bringing this version even closer to Descartes's original while maintaining its clear and accessible style. *Descartes: Meditations on First Philosophy* René Descartes, 2017-02-16 This is an updated edition of John Cottingham's acclaimed translation of Descartes's philosophical masterpiece, including an abridgement of Descartes's *Objections and Replies*.

**Meditations on First Philosophy** René Descartes, 2008-05-08 It is some years now since I realized how many false opinions I had accepted as true from childhood onwards. I saw that at some stage in my life the whole structure would have to be utterly demolished. In Descartes's *Meditations*, one of the key texts of Western philosophy, the thinker rejects all his former beliefs in the quest for new certainties. Discovering his own existence as a thinking entity in the very exercise of doubt, he goes on to prove the existence of God who guarantees his clear and distinct ideas as a means of access to the truth. He develops new conceptions of body and mind capable of serving as foundations for the new science of nature. Subsequent philosophy has grappled with Descartes's legacy, questioning many of its conclusions and even his basic approach, but his arguments set the agenda for many of the greatest philosophical thinkers and their fascination endures. This new translation includes the Third and Fourth Objections and Replies in full and a selection from the rest of these exchanges with Descartes's contemporaries that helped to expound his philosophy. **ABOUT THE SERIES** For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

**Meditations on First Philosophy** René Descartes, 2013-05-02 Considered a foundational text in modern philosophy, the *Meditations on First Philosophy* presents numerous powerful arguments that to this day influence debates in epistemology, the philosophy of mind, and the philosophy of religion. This new translation incorporates revisions from the second Latin edition (1642) and the later French translation (1647) to make Descartes's reasoning as lucid and engaging as possible. Also included in this edition is a brief introduction to Descartes and the *Meditations*, revised and expanded from Andrew Bailey's acclaimed anthology *First Philosophy*. The introduction helps the reader to understand the context and purpose of Descartes's

project without over explaining his arguments

**Meditations on First Philosophy** René Descartes,1960 The translation of the *Meditations* is taken from three sources the second Latin edition of 1642 which was the first one printed from Descartes own manuscript and under his own supervision the first French translation of 1646 by Duc de Luynes but read and approved by Descartes and the second French translation by Clerselier An attempt has been made in this translation to integrate these three version into one complete and accurate edition by the use of brackets and parentheses The reader may by omitting the parentheses and brackets have a translation which contains all ideas in the three versions By omitting bracketed material he will have a translation essentially that of the original Latin and by omitting material in parentheses that of the First French edition

**Meditation on First Philosophy** Rene Descartes,2012-11-01 The book is made up of six meditations in which Descartes first discards all belief in things which are not absolutely certain and then tries to establish what can be known for sure The meditations were written as if he were meditating for 6 days each meditation refers to the last one as yesterday

motivated by a strong philosophical interest     *Descartes' Meditations on First Philosophy* René Descartes,2020-07-31 Ren Descartes is often described as the first modern philosopher but much of the content of his Meditations on First Philosophy can be found in the medieval period that had already existed for more than a thousand years Does God exist If so what is his nature Is the human soul immortal How does it differ from the body What role do sense experience and pure reason play in knowing Descartes stands out from his predecessors because of the method he developed to treat these and other fundamental questions Drawing on his study of mathematics he searches for a way to establish absolutely certain conclusions based on indubitable premises His importance in modern philosophy lies in the challenge he offers to every subsequent thinker in philosophy and science The French philosopher Descartes is often called the Father of modern philosophy in the West His Discourse on Method presents the reason why his method of inquiry He was the quintessential rationalist subjecting all sense experience as doubtful and untrustworthy Rather than relying on external authority whether from other people or from God Descartes demands nothing less than absolute certainty that begins with the self and proceeds step by step with the rigor of logical and mathematical precision Even though he claims that he has proved the existence of God and explained God's nature even that core tenet must be established through rigorous logical argument No subsequent philosopher is able to ignore this bold and challenging foundation for all thinking Those who become his disciples as well as those who reject his way of thinking are all under his spell Many think they have broken that spell only to find that he has shaped them in ways that are not easy to escape     [A Guided Tour of René Descartes' Meditations on First Philosophy](#)

Christopher Biffle,1989     *Meditations on First Philosophy* Rene Descartes,John Veitch,2014-08-23 Meditations on First Philosophy In which the Existence of God and the Immortality of the Soul are Demonstrated Rene Descartes Meditations on First Philosophy is a philosophical treatise by Rene Descartes first published in 1641 The book is made up of six meditations in which Descartes first discards all belief in things which are not absolutely certain and then tries to establish what can be known for sure The meditations were written as if he was meditating for 6 days each meditation refers to the last one as yesterday In fact Descartes began work on the Meditations in 1639 The Meditations consist of the presentation of Descartes metaphysical system in its most detailed level and in the expanding of Descartes philosophical system which he first introduced in the fourth part of his Discourse on Method 1637 Descartes metaphysical thought is also found in the Principles of Philosophy 1644 which the author intended to be a philosophy guidebook The motive which induces me to present to you this Treatise is so excellent and when you become acquainted with its design I am convinced that you will also have so excellent a motive for taking it under your protection that I feel that I cannot do better in order to render it in some sort acceptable to you than in a few words to state what I have set myself to do I have always considered that the two questions respecting God and the Soul were the chief of those that ought to be demonstrated by philosophical rather than theological argument For although it is quite enough for us faithful ones to accept by means of faith the fact that the human soul does

not perish with the body and that God exists it certainly does not seem possible ever to persuade infidels of any religion indeed we may almost say of any moral virtue unless to begin with we prove these two facts by means of the natural reason And inasmuch as often in this life greater rewards are offered for vice than for virtue few people would prefer the right to the useful were they restrained neither by the fear of God nor the expectation of another life and although it is absolutely true that we must believe that there is a God because we are so taught in the Holy Scriptures and on the other hand that we must believe the Holy Scriptures because they come from God the reason of this is that faith being a gift of God He who gives the grace to cause us to believe other things can likewise give it to cause us to believe that He exists we nevertheless could not place this argument before infidels who might accuse us of reasoning in a circle And in truth I have noticed that you along with all the theologians did not only affirm that the existence of God may be proved by the natural reason but also that it may be inferred from the Holy Scriptures that knowledge about Him is much clearer than that which we have of many created things and as a matter of fact is so easy to acquire that those who have it not are culpable in their ignorance This indeed appears from the Wisdom of Solomon chapter xiii where it is said Howbeit they are not to be excused for if their understanding was so great that they could discern the world and the creatures why did they not rather find out the Lord thereof and in Romans chapter i it is said that they are without excuse and again in the same place by these words that which may be known of God is manifest in them it seems as though we were shown that all that which can be known of God may be made manifest by means which are not derived from anywhere but from ourselves and from the simple consideration of the nature of our minds Hence I thought it not beside my purpose to inquire how this is so and how God may be more easily and certainly known than the things of the world *Descartes' Meditations on First Philosophy* Kurt Brandhorst, 2010-07-16

Descartes' *Meditations* is one of the most commonly studied texts in introductory philosophy courses. Rather than simply telling the reader what to think, *Meditations* invites them to undertake a philosophical journey for themselves. This book is designed to accompany readers on that journey; it prepares them for its demands, helps them to engage with each stage of the text, and suggests ways through the more difficult passages. Brandhorst offers students a fresh approach by bringing to life the path of self-discovery encapsulated in the work and maintaining the focus on metaphysics. Readers are guided through the text step by step, which encourages careful reading and presents them with the opportunity to learn to philosophise for themselves. This book engages with what the text says rather than what is said about the text in order to help readers discover or rediscover for themselves what *Meditations* has to say. *Meditations on First Philosophy* René Descartes, 1993

Many other matters respecting the attributes of God and my own nature or mind remain for consideration but I shall possibly on another occasion resume the investigation of these. Now my principal task is to endeavour to emerge from the state of doubt into which I have these last days fallen. *Meditations on First Philosophy* René Descartes, 2013-05-02
