hints of new connections glimpses of transformation The poetry is cosmopolitan and passionate Focusing where public and

Films of Walter Hill Another Time Another Place Brian Brems explores how as action emerged as a full fledged genre of
cinema Walter Hill established his position in the genre first as a screenwriter and then as a director Hill Brems argues
helped merge the thematic and stylistic concerns of the Western and film noir into a new action cinema establishing a
reputation for mythic highly stylized storytelling driven by a relentless pace Through analyses of Hill s filmography this book
demonstrates his consistent use of the architecture of classical storytelling to help codify the language of the action movie
These observations are supported by extensive conversations with Walter Hill and several of his on screen collaborators
including Lance Henriksen Sigourney Weaver David Patrick Kelly James Renmar and William Sadler Ultimately Brems
positions Hill as a key American film artist whose work has inspired countless imitations **New Broadway Magazine**
