Cooley, 2005 The Handbook takes a pracademic approach to creative problem solving in negotiation and mediation. Pracademics used to describe the art and science of translating the theory of creative problem solving into practice and conversely converting the practice of creative problem solving into theory. Volume Two of the Handbook is focused on specific creative problem solving techniques and tools that negotiation mediation practitioners across the country have found to be effective in resolving disputes or making deals. A highly useful feature of Volume Two is its multiple indexing to facilitate identifying techniques or tools appropriate for the problem solving task. The text is accessible and well written. **RESOLVE Family Mediation Canada** This is an important text making complex ideas easily accessible and thought provoking. It will certainly become essential reading for family mediation practitioners and of interest to therapists. **Magazine for Family Therapy Systemic Practice UK** *Therapeutic Family Mediation* is a practice based text grounded in a therapeutic family mediation TFM model created by the authors. This is the first comprehensive treatment of the model, complete with clinical examples and practice strategies. The authors include a detailed review of the model's five stages accompanied by a discussion of theoretical underpinnings, practice techniques, the mediation of parenting and financial plans, the importance of cultural diversity, and research trends based on a thorough review of the literature. Contemporary issues associated with family mediation in the 21st century are employed to illustrate the model in action with a full length case presentation. **Key Features** Guides the reader through the authors five step model: Intake, Assessment, Pre Mediation, Negotiation, Termination, and Follow Up.
