*Medieval York* D. M. Palliser, 2014 Provides a comprehensive history of what is now considered England's most famous surviving medieval city covering nearly a thousand years     *Medieval York* Gareth Dean, 2008 York is one of the most visited cities in England above all for its medieval heritage the Minster the city walls and the streets where many elements of the medieval city are still visible Drawing on a mass of unpublished excavations over the last 35 years Gareth Dean shows how York developed from Viking Jorvik into one of the wealthiest cities in medieval Europe He describes the arrival of the Normans and the defences of the City its religious life embracing the Minster parish churches monastic houses nunneries friaries and hospitals life and death taking in housing and burial evidence trade and industry with a host of Guilds and finally the Dissolution of the monasteries Unlike other books on York this makes full use of the latest historical and archaeological research

**Medieval York** D. M. Palliser, 2014-01-23 Medieval York provides a comprehensive history of what is now considered England's most famous surviving medieval city covering nearly a thousand years The volume examines York from its post Roman revival as a town c 600 to the major changes of the 1530s and 1540s which in many ways brought an end to the Middle Ages in England York was one of the leading English towns after London and in status almost always the second city Much research and publication has been carried out on various aspects of medieval York but this volume seeks to cover the field in its entirety David Palliser offers an up to date and broad based account of the city by employing the evidence of written documents archaeology especially on the rich results of recent city centre excavations urban morphology numismatics art architecture and literature Special attention is paid to the city's religious drama and its wealth of surviving stained glass The story of Medieval York is set in a wide context to make comparisons with other English and Continental towns to establish how far York's story was distinctive or was typical of other English towns which have been less fortunate in the survival of their medieval fabric It is essential reading for anyone interested in York's past and in its rich heritage of medieval churches guildhalls houses streets and city walls the most complete medieval circuit in England

The Government of Medieval York Sarah Rees Jones, 1997     **York** Sarah Rees Jones, 2013-10 This volume is a study of the development of the city of York as a place and as a community between 1068 and 1350     *Imagining Jesus Christ in Middle English Literature, 1275-1475* Theresa Tinkle, 2024-09-16 This book interprets Jesus Christ as a complicated disunified literary character in Middle English literature where he appears variously as king traitor victorious conqueror sacrificial lamb heroic knight lover and spouse often as several contradictory figures in a single work These tropes derive from Scripture doctrines about Christ's two natures and theories of redemption This book examines the full range of representations in Southern Passion Northern Passion Pepysian Gospel Harmony Stanzaic Life of Christ Cursor Mundi Nicholas Love's Mirror of the Blessed Life of Jesus Christ Sir John Mandeville's Book the York Play and Julian of Norwich's Revelation of Love Although Christ's two natures are well represented in existing scholarship many traditions have been

overlooked including commonplace treatments of Christ as both a traitor and king conqueror and sacrificial lamb hero and lover As writers call upon audiences to feel compassion for Jesus's suffering they almost universally express antipathy toward his Jewish torturers complicating our ideas about affective piety In these works the Virgin Mary is less exemplary for her compassion than for her understanding of doctrine In short this book offers new perspectives on vernacular Christology between about 1275 and 1475 Theresa Tinkle is a Professor within the Department of English Language and Literature at the University of Michigan USA as well as Director of the Gayle Morris Sweetland Center for Writing Previous publications include Medieval Venuses and Cupids Sexuality and Hermeneutics in English Poetry 1996 and Gender and Power in Medieval Exegesis Palgrave 2010 Theresa's academic training and publications include the study of medieval English and Latin literature the medieval reception of the Bible gender and sexuality studies paleography and manuscript studies composition and pedagogy and disability studies Later Medieval York: the city and county of the city of York from 1100 to 1603. The York Mystery Plays Margaret Rogerson,2011 Essays on the York Mystery Plays uniting voices from the scholarly world with the York community that has assumed responsibility for their production today The York Play of Corpus Christi also known as the York Cycle has been central to the study of early English theatre for over a century and a touchstone for the revival of medieval dramatic practice for over fifty years But these two endeavours have often found little common ground This volume therefore accomplishes something very important It brings together scholars of medieval English drama and places them in dialogue with experienced practitioners from the community Together they share a common commitment to understanding how performances matter to the communities that produce them and how plays intersect with other public activities CAROL SYMES Professor of History University of Illinois at Urbana This volume provides a wealth of new insights into the performance of mystery plays in medieval York and their modern revival It utilises both academic study and the practical experience of those who now produce the cycle within York itself on wagons in the street in an approximation of their original performance A number of topics are covered The

manuscript is linked to Richard III the Masons are introduced as non guildsmen in an enterprise assumed to be guild specific families not just male heads of households are shown to be important to the dramatic narrative and cognitive theory elucidates performance past and present Recent productions are discussed in lively detail by those directly responsible for them leading to analyses of performances in Israel Spain and Australia not all of them of a predictable kind which offer further angles on the medieval dramatic tradition Professor Margaret Rogerson teaches in the Department of English at the University of Sydney Contributors Margaret Rogerson Keith Jones Richard Beadle Sheila K Christie Mike Tyler Jill Stevenson Elenid Davies Ben Pugh Peter Brown Tony Wright Steve Bielby Emma Cunningham Alan Heaven Linda Ali Paul Toy Gweno Williams John Merrylees David Richmond Alexandra F Johnston Sharon Aronson Lehavi Pamela M King *Annual Report* Yorkshire Philosophical Society, 1915 *The Century*, 1888 **Publications of the Surtees Society**, 1912 List of publications v 1 132 in v 132

**Glimpses of Quebec During the Last Ten Years of French Domination, 1749-59** Sir James MacPherson Le Moine, 1880 **York** Sarah Brown, Sarah Rees Jones, Tim Ayers, 2021-07-19 York explores the archaeology art architecture and cultural heritage of the city in the late Middle Ages In the years since the resurrection of the British Archaeological Association conference in 1976 the association has met in the city only once in 1988 for a conference that celebrated Yorkshire Monasticism As a consequence the secular and vernacular architecture as well as the architecture art and imagery of York Minster were excluded from its scope something redressed in the meeting that took place in 2017 As many recent publications have focused on York in the earlier medieval period this book shines a much needed light on the city in the later medieval ages Starting with a range of essays on York Minster by authors directly involved in major conservation projects undertaken in the last ten years the book also includes information on the vernacular architecture and transport infrastructure of York as well as the parochial and material culture of the period Illuminating the extensive resources for the study of the late Middle Ages in England's second capital this book provides new research on this important city and will be suitable for researchers in medieval archaeology art history literature and material culture
