Medieval Civilisation:

Medieval Civilization, 400-1500 Jacques Le Goff, 2000 This 1000 year history of the civilization of western Europe has been recognized in France as a scholarly contribution of the highest order and as a popular classic Jacques Le Goff has written a book which will be read by generations of students and historians Part one is a narrative account of the entire period from the barbarian settlement of Roman Europe in the fifth sixth and seventh centuries to the war torn crises of Christian Europe in the fourteenth and fifteenth centuries Part two is analytical concerned with the origins of early medieval ideas of culture and religion the constraints of time and space in a pre industrial world and the reconstruction of the lives and sensibilities of the people during this long period Le Goff combines the narrative and descriptive power characteristic of Anglo Saxon scholarship with the sensitivity and insight of the French historical tradition From publisher description

Medieval Civilization Larry D. Harwood, 2016-03-02 Providing an overall view of the medieval period of Western history this book maintains a balanced approach to an age that has been romanticized as well as vilified Written with an eye toward modern readers who may be perplexed by the hazy Middle Ages Medieval Civilization provides illuminating details that enable the reader to enjoy a fascinating overview of this stretch of a thousand years Rather than maintaining a dismissive attitude toward this presumed dark and dank period of human failings the author banters about and responds to some criticisms of the medieval world by modern critics alongside his telling of the medieval story Religious presences loom large in this book written about an age of religion and things religious in a way largely foreign to the modern world The medieval period breathes in this tale of peasants priests and kings rather than being autopsied as a museum piece Terms like scholastic gothic mendicant monk stigmata and others are put into medieval contexts for ease of understanding while a huge slice of Western history usually looked at suspiciously by modern people is presented as preparation for understanding much of the modern world *Medieval History* Norman F. Cantor, 1969 [The Illustrated Encyclopedia of Medieval Civilization](#)
