## Medieval Reformation:

**The Medieval Reformation** Brenda Bolton, 1983      **Soldiers of Christ** Larissa Taylor, 1992 She reconstructs popular attitudes about such issues as original sin free will purgatory the devil the sacraments and the magical arts      **Medieval**

**Panorama** G. G. Coulton, George Gordon Coulton, 2010-08-26 This 1938 book by distinguished medievalist G G Coulton comprises fifty two chapters based on a lifetime of research that cover every aspect of medieval life from the emergence of feudalism to the bursting of the dykes at the Reformation The focus is on England but the European context is also defined

*Continuity and Change* Robert James Bast, Andrew Colin Gow, Heiko Augustinus Oberman, 2000 Offered here for the first time the essays represent the most recent formulations of a wide variety of specialists within their own areas of expertise while collectively contributing to the current historiographical debates about continuity and discontinuity between the Middle Ages and the Early Modern era      *The Reformation of Faith in the Context of Late Medieval Theology and Piety*

Berndt Hamm, 2003-12-01 This book comprises the first major collection of articles in English translation by University of Erlangen Professor Dr Berndt Hamm one of the most important and innovative scholars of the intellectual history of late medieval and Reformation Germany The articles herein trace the evolution of Christian theology and piety from the twelfth through the sixteenth centuries employing a variety of disciplines and interpretative models to chart transformations with extraordinary attention to historical context Hamm s intensive work with previously unknown sermon collections devotional works and pastoral care manuals from the later middle ages serves as the basis for a new appraisal of the lines of continuity and change between that era and the German Reformation      **Luther and the Reformation of the Later Middle Ages**

Eric Leland Saak, 2017-04-19 Saak re interprets Martin Luther as an Augustinian Hermit whose 95 Theses came as the culmination of the late medieval Reformation      *The Dawn of the Reformation* Heiko Oberman, 1992-08-04 A distinguished scholar places the Reformation movement in its medieval context Oberman s discerning perspective illuminates the modern student in regard to the multi faceted historical cultural context out of which the Reformation arose This splendid volume includes essays ranging in time from the fourteenth century to Calvin Gordon Rupp University of Cambridge      *Monks, Miracles and Magic* Helen L. Parish, 2005 Setting key case studies in a broad conceptual framework this innovative new study of Reformation attitudes to medieval Christianity is key reading for all those with an interest in the construction of the Protestant church and its medieval past      **Jean Gerson and the Last Medieval Reformation** Brian Patrick

McGuire, 2010-11-01 In this biography of the noted French philosopher and theologian Jean Gerson the first since 1929 Brian Patrick McGuire presents a compelling portrait of Gerson as a voice of reason and Christian humanism during a time of great intellectual and social tumult in the late Middle Ages Born to a peasant father and mother in the county of Champagne Gerson 1363 1429 was the first of twelve children He overcame his modest beginnings to become a scholastic and vernacular theologian a university intellectual and a church reformer McGuire shows us the turning points in Gerson s life including his

crisis of faith after becoming chancellor of the University of Paris in 1395 Through these key moments we see the deeper undercurrents of his mystical writings With their rich display of spiritual and emotional life these writings were to earn Gerson the appellation doctor christianissimus In turn they would influence many later thinkers including Nicholas of Cusa Ignatius of Loyola Francis de Sales and even Martin Luther Gerson is a man perhaps easier to admire than to love conscientious to a fault at once a pragmatist and an idealist in church politics a university intellectual who both fostered and distrusted the religious aspirations of the laity a powerful prelate who moved among the great yet never forgot his peasant origins a self revealing yet intensely private man who yearned for intimacy almost as much as he feared it McGuire ably situates Gerson in the context of his age an age replete with doctrinal controversies and the politics of papal schism on the eve of the Protestant Reformation Gerson emerges as a proponent of dialogue and discussion committed to reforming the church from within His courageous effort to renew the unity of a unique civilization bears examination in our own time

*The Age of Reform 1250-1550* Steven Ozment, 1980-09-28 A masterful intellectual and religious history of late medieval and Reformation Europe Christianity Today A learned humane and expressive book Gerald Strauss Renaissance Quarterly The seeds of the swift and sweeping religious movement that reshaped European thought in the 1500s were sown in the late Middle Ages In this book Steven Ozment traces the growth and dissemination of dissenting intellectual trends through three centuries to their explosive burgeoning in the Reformations both Protestant and Catholic of the sixteenth century He elucidates with great clarity the complex philosophical and theological issues that inspired antagonistic schools traditions and movements from Aquinas to Calvin This masterly synthesis of the intellectual and religious history of the period illuminates the impact of late medieval ideas on early modern society **Forerunners of the Reformation** Heiko A. Oberman, 2003-05 Oberman's magisterial work transfers discussion of late medieval Christian thought from the private studies of the specialist to more general use and understanding and explains the significance of the ideas of the time Although this Late Medieval Reader does not exhaust the riches of the period between the High Middle Ages and the Reformation era it introduces the reader to aspects of such major themes as conciliarism curialism mysticism scholasticism the spirituality of the Devotio Moderna and the impact of Renaissance humanism The theme of the Forerunners has grown out of the consideration that the justified rejection of a confessional reading of the past has been succeeded by an equally unhistorical disjunction of the Medieval and Reformation periods Without a grasp of the fourteenth and fifteenth centuries the medieval basis of modern thought is incomplete since Reformation and Counter Reformation seem to arise out of the blue

*Bridging the Medieval-Modern Divide* James Muldoon, 2016-04-15 The debate about when the middle ages ended and the modern era began has long been a staple of the historical literature In order to further this debate and illuminate the implications of a longue durée approach to the history of the Reformation this collection offers a selection of essays that address the medieval modern divide Covering a broad range of topics encompassing legal social cultural theological and

political history the volume asks fundamental questions about how we regard history and what historians can learn from colleagues working in other fields that may not at first glance appear to offer any obvious links By focussing on the concept of the medieval modern divide in particular the relation between the Middle Ages and the Reformation each essay examines how a medievalist deals with a specific topic or issue that is also attracting the attention of Reformation scholars In so doing it underlines the fact that both medievalists and modernists are often involved in bridging the medieval modern divide but are inclined to construct parallel bridges that end between the two starting points but do not necessarily meet As a result the volume challenges assumptions about the strict periodization of history and suggest that a more flexible approach will yield interesting historical insights

**The Medieval Church** Carl A. Volz, 2011-07-01 Why does one's concept of the medieval church have a direct bearing on one's attitude toward ecumenism How was Europe evangelized Why is it essential to understand the different relationships of church to state between the West and Byzantium in order to understand the church's role in Eastern culture today What common practices of public worship and personal piety have their roots in the medieval church The Medieval Church From the Dawn of the Middle Ages to the Eve of the Reformation addresses these questions and many more to demonstrate the pervasive influence of the past on modern piety practice and beliefs For many years the Medieval period of church history has been ignored or denigrated as being the dark ages an attitude fostered by Enlightenment assumptions Yet not only does this millennium provide a bridge to the early church it created modern Europe and its nations institutions and the concept of Christendom as well The Medieval Church written in an easily accessible style introduces the reader to the fascinating interplay of authority and dissent the birth and development of doctrinal beliefs the spirituality of the common person and the enduring allure of Christian mysticism The Medieval Church is a companion to The Early Church Origins to the Dawn of the Middle Ages by E Glenn Hinson and The Modern Church From the Dawn of the Reformation to the Eve of the Third Millennium by Glenn Miller

**Reform and Conflict** Rudolph W. Heinze, Tim Dowley, 2012-10-18 This volume covers a period of major change that had a lasting impact on art science economics political thought and education Rudolph W Heinze examines the various positions taken by medieval church reformers explores the efforts of the leading reformer Martin Luther and emphasises how the reformations brought moral and doctrinal changes to Christianity permanently altering the religious landscape then and now

*The Reformation of Suffering* Ronald K. Rittgers, 2012-06-28 Protestant reformers sought to effect a radical change in the way their contemporaries understood and coped with the suffering of body and soul that were so prominent in the early modern period This book examines the genesis of Protestant doctrines of suffering among the leading reformers and then traces the transmission of these doctrines from the reformers to the common clergy It also examines the reception of these ideas by lay people

**Lived Religion and Gender in Late Medieval and Early Modern Europe** Sari Katajala-Peltomaa, Raisa Maria Toivo, 2020-11-23 This study is an exploration of lived religion and gender across the Reformation from the 14th 18th centuries Combining conceptual

development with empirical history the authors explore these two topics via themes of power agency work family sainthood and witchcraft By advancing the theoretical category of experience Lived Religion and Gender reveals multiple femininities and masculinities in the intersectional context of lived religion The authors analyse specific case studies from both medieval and early modern sources such as secular court records to tell the stories of both individuals and large social groups By exploring lived religion and gender on a range of social levels including the domestic sphere public devotion and spirituality this study explains how late medieval and early modern people performed both religion and gender in ways that were vastly different from what ideologists have prescribed Lived Religion and Gender covers a wide geographical area in western Europe including Italy Scandinavia and Finland making this study an invaluable resource for scholars and students concerned with the history of religion the history of gender the history of the family as well as medieval and early modern European history The Introduction chapter of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

The Oxford Handbook of Calvin and Calvinism Bruce Gordon, Carl R. Trueman, 2021-07-28 The Oxford Handbook of Calvin and Calvinism offers a comprehensive assessment of John Calvin and the tradition of Calvinism as it evolved from the sixteenth century to today Featuring contributions from scholars who present the latest research on a pluriform religious movement that became a global faith The volume focuses on key aspects of Calvin's thought and its diverse reception in Europe the transatlantic world Africa South America and Asia Calvin's theology was from the beginning open to a wide range of interpretations and was never a static body of ideas and practices Over the course of his life his thought evolved and deepened while retaining unresolved tensions and questions that created a legacy that was constantly evolving in different cultural contexts Calvinism itself is an elusive term bringing together Christian communities that claim a shared heritage but often possess radically distinct characters The Handbook reveals fascinating patterns of continuity and change to demonstrate how the movement claimed the name of the Genevan reformer but was moulded by an extraordinary range of religious intellectual and historical influences from the Enlightenment and Darwinism to indigenous African beliefs and postmodernism In its global contexts Calvinism has been continuously reimagined and reinterpreted This collection throws new light on the highly dynamic and fluid nature of a deeply influential form of Christianity

*Introduction to the History of Christianity* George Herring, 2006-09 A beautifully crafted and clearly written introduction to Christianity over its 2000 year history

*The Reformation in Medieval Perspective* Steven E. Ozment, 1971 Reformation and humanism by R. R. Post Paracelsus by A. Koyr Simul gemitus et raptus Luther and mysticism by H. A. Oberman Bibliography p. 253-256

**Medieval Heresy** Michael Lambert, 2002-09-09 For the third edition this comprehensive history of the great heretical movements of the Middle Ages has been updated to take account of recent research in the field
