Schwartz, 1982 This book should be of interest to geologists biologists environmentalists ecologists engineers lecturers and students in related subjects libraries *Madrid and Its Surroundings* Kelly Lipscomb, 2009 The autonomous community of Madrid occupies the geographical center of Spain With over three million people Madrid is the bull's eye on this mostly dry rolling high plain that is part of the expansive Meseta Central characterizing much of the province and the country around it The city's elevation at 2 100 feet above sea level makes it the highest European capital and the one with the most startling climatic extremes The Sierra de Guadarrama Mountains a great mass of granite rising in the north is a continuation of the country's central mountain range the Cordillera Central Just a short jaunt from Madrid this realm enjoys cool weather year round and forms a stunning visual contrast to the plains surrounding Madrid with its slopes covered in pine forests and the prismatic bands of the rivers Manzanares and Jarama coursing southward toward the larger Tagus The range serves to separate Madrid from Castilla y Len to the north and west while the south of the province is

bordered by the autonomous community of Castilla La Mancha The Comunidad de Madrid is not all one big city Areas around the perimeter are still relatively natural or at the least retaining of a more traditional charm with their poultry houses and pig farms rather than high rises and smokestacks On the lower slopes of the Guadarrama small villages are isolated and free of tourists for much of the year Trails are marked throughout and in good years snow is plentiful enough to ski South of Madrid the beautiful city of Aranjuez is lush and leisurely along the banks of turquoise waters and to the west the monumental El Escorial makes a perfect day trip en route to the popular cities of Segovia or Salamanca on the far side of the mountains Madrid has been called the greatest Spanish city There is no denying its supremacy in the realms of commerce politics and sport the sharply divided Spaniards agree on one thing Real Madrid soccer team is the surest bet And there s no escaping its romping rollicking late night tendencies Madrid is any other Spanish city on speed A newcomer could easily get lost bewildered and frustrated in the crowds At each turn harried masses dash to and fro appearing bent on some purpose and yet despite the prevailing rush the Madrileos are by and large as welcoming and friendly as a rural Galician or a lonely Extremaduran The shoeshine man in Plaza Mayor is content to people watch rather than polish shoes and earn a few coins the singing guitarist outside Caf e Oriente still smiles when a tourist refuses to tip him the sharp suited executive lingers in Casa Pablo for another drink or two for the whole afternoon rather than return to work With a population representative of every Spanish region with the nation s greatest collection of artworks on display in the nation s best museums there is no greater whirlwind introduction to the country than by way of Madrid Once you ve roamed the halls of the Prado for hours on end and still not seen all the works or danced away the night at Palacio only to learn the following day that a far better and less touristy disco is just around the corner then you will understand why Madrid is best approached on its own terms It isn t a love affair that keeps people coming back to this city time and again but more like a life long courtship Here is a highly detailed guide to Madrid and the surrounding areas loaded with maps photos and all the information you need about restaurants hotels what to see and what to do This is an excerpt from our 670 page Spain Adventure Guide and it includes an extensive Introduction on Spain as a whole The book is equivalent to about 150 pages in print

Barcelona and Its Surroundings Kelly Lipscomb,2009 Geographically Catalu a The region surrounding Barcelona Is not unlike Spain as a whole The soaring Pyrenees Mountains in the north separating Spain from France yield To The Mediterranean s Costa Brava in the east Were it not For The ungainly resorts that have diminished its natural beauty since the 1960s this wild coast would be the loveliest if not the most extreme Mediterranean coast of the peninsula Still its features the dark jagged rock outcroppings The foreboding cliffs And The general angriness of it all have not been completely buried in concrete just harnessed For The ease of our enjoyment There are the remarkable ruins of Empuries to explore vestiges of the Greeks And The Romans who were truly the first to develop this coast and a few of its coastal

towns Cadaques comes to mind were never wrecked We have the Pyrenees to thank for saving Cadaques since to reach it one must ascend and wind around the lower reaches of these mountains for 45 minutes on good roads before making the descent toward this Salvador Dalí's favored retreat Developers tend to favor easier roads Higher up in the Catalan Pyrenees where the peaks top out at over 3 000 m 9 840 feet and waterfalls cascade down their faces there is more to be thankful for A series of Romanesque churches The product of Catalu's medieval golden age when its counts allied with neighboring Aragón to create a seafaring kingdom unrivaled in the Mediterranean at the time are hidden in far flung valleys set along crystalline streams away from the package tourists and even paved roads With snowfall The Catalan Pyrenees offer great cross country and downhill skiing and when it melts great whitewater adventures Throughout the year one can marvel at the secluded wilderness of the Aiguestortes National Park and wonder why they ever spent so much time in Barcelona Barcelona is the stylistic capital of Spain endowed with bold modernist architecture traditionally the seat of challenging art movements and by and large a truly modern European city To the west The modest mountains surrounding the city The champagne vineyards and beyond them the wild massif of holy Montserrat give way To The eastern realm of the barren plateau known as the Meseta Catalu's driest and most desolate expanse As the region narrows out toward the south near its border with Valencia The delta of the Ró Ebro Spain's longest river fosters wetlands that attract clouds of migratory birds Here As throughout the coastal regions of Catalu's The climate is strictly Mediterranean with generally mild winters and brutally humid and hot summers a stark contrast To The dry air and snowy peaks of the Pyrenees In its diverse landscapes Catalu's certainly looks like Spain even if it doesn't act like Spain But by its own measure Catalu's adds an element of sophistication and openness that serves to complement the rest of the country Without it Spain would have its wine but no champagne Barcelona is a city that immediately calls to mind great art and architecture here one And The same music nightlife walks a great many things As well as a great deal of misunderstanding As a Catalan friend pointed out We are a complex people living in a thousand places at once Such a maelstrom of commerce culture and idealism is not easily correlated often leaving visitors with the feeling that while they may have seen a Gaudí façade they were never invited inside to see what was holding it up Here is the most detailed guide to Barcelona And The Catalu's region that surrounds it loaded with maps photos and complete information on where to stay where to dine and what to see and do Also included is an extensive general section on Spain as a whole An excerpt from Hunter's Adventure Guide to Spain which is 670 pa
